Everyone Believes in Magic: A Discussion of God, God Haters, and the Beginning of the Universe Dr.

Tim St. Peters

This book tackles many subjects that will challenge you and make you think. Thinking is a lost art that seems to have gone by the wayside. This book isn't intended to blame TV, the public schools, atheists, scientists, Democrats, the Tea Party, your minister growing up, your parents, the emergent teachers, or postmodernism. It is intended to challenge folks to think, process, and to attempt to know all that they can learn. Living a lie or living in an unchallenged bubble, to me, seems like a life not very well lived.
