Excerpt from Sketches of Western North Carolina, Historical and Biographical

History has been defined, "Philosophy teaching by example." There is no branch of literature in a republic like ours, that can be cultivated with more advantage to the general reader than history. From the infinite variety of aspects in which it presents the dealings of Providence in the affairs of nations, and from the immense number of characters and incidents which it brings into view, it becomes a source of continuous interest and enjoyment.

The American Revolution is undoubtedly the most interesting event in the pages of modern history. Changes equally great and convulsions equally violent have often taken place in the Old World; and the records of former times inform us of many instances of oppression, which, urged beyond endurance, called forth the spirit of successful resistance. But in the study of the event before us - the story of the Revolution - we behold feeble colonies, almost without an army - without a navy - without an established government - without a good supply of the munitions of war, firmly and unitedly asserting their rights, and, in their defence, stepping forth to meet in hostile array, the veteran troops of a proud and powerful nation.
