The American Encounter: The United States And The Making Of The Modern World: Essays From 75 Years Of Foreign Affairs

Since its founding in 1922, *Foreign Affairs* has been the world's leading journal of international relations, a distinction earned by providing the most insightful and far-reaching commentary on global politics and economic policy available anywhere. America has increasingly played a pivotal role in world events, whether military, political, economic, or ideological, and *Foreign Affairs* and its contributors have been at the center of each debate. It was in *Foreign Affairs* that George Kennan first proposed the policy of containment that became the touchstone of U.S. strategy during the Cold War; that statesmen-scholars like Henry Kissinger and Arthur Schlesinger have debated the contentious issues of nuclear weapons and human rights; that journalists like Walter Lippmann and James Reston have offered prescient analyses of American foreign policy; and that thinkers like Isaiah Berlin and Samuel Huntington have explained the changing nature of the world. In *The American Encounter*, readers will find these landmark essays and many more in a unique intellectual history of this century and of the extraordinary role that America has played in it. There is no other book like this, because there is no other publication like *Foreign Affairs*. *The American Encounter* is a powerful link to the giants of history—those visionaries whose warnings and advice still speak to us today, offering wisdom, insight, and a greater understanding of America's place in the world.
