Rape, Victims, and Investigations: Experiences and Perceptions of Law Enforcement Officers Responding to Reported Rapes (Routledge Studies in Crime and Society) Shana L Maier

Despite changes to laws and attitudes, rape continues at epidemic levels worldwide. As gatekeepers to the criminal justice system, law enforcement officers are important to the processing of rape cases and their interactions with victims can potentially affect the victim's reaction to and recovery from rape.

In order to better understand rape and the processing of cases through the criminal justice and legal systems, *Rape, Victims and Investigations* explores the unique perceptions and experiences of detectives who respond to rape victims and investigate rape cases. The detective's investigation is the foundation of the prosecution's case; the book considers factors that contribute to the challenging nature of rape investigations, such as lack of evidence or a clear, credible victim statement. Detectives' perceptions of victims' revictimization by the criminal justice and legal systems are also explored. The book also looks at specific causes of police stress and burnout related to working rape cases, financial struggles faced by departments, and ways to meet these challenges.

By integrating previous research within the context of rich interview data, *Rape, Victims and Investigations* provides deep insight for readers and will contribute to the continued improvement of treatment of victims by the criminal justice system. The book will be essential reading for academics, students, law enforcement officers, those who provide services to sexual assault victims and victims themselves.
