The Ninemile Wolves Rick Bass

One of Rick Bass's most widely respected works of natural history, *The Ninemile Wolves* follows the fate of a modern wolf pack, the first known group of wolves to attempt to settle in Montana outside protected national park territory. The wolf inspires hatred, affection, myth, fear, and pity; its return polarizes the whole of the West -- igniting the passions of cattle ranchers and environmentalists, wildlife biologists and hunters. One man's vigorous, emotional inquiry into the proper relationship between man and nature, *The Ninemile Wolves* eloquently advocates wolf reintroduction in the West. In a new preface, Bass discusses the enduring lessons of the Ninemile story.
