Sir William Jones has said of the S utras of Panini that they are dark as the darkest oracle; and Colebrooke, in one of his Essays, has given a list of about one hundred and forty Indian grammarians and commentators who have followed in the footsteps of the great Patriarch of Sanscrit Grammar, and endeavoured to throw light upon the obscurity of his aphorisms. In this endeavour they have succeeded rather in shewing the depth of their own knowledge, than in making the subject more accessible to the generality of European students; and the explanations which they offer are sometimes more unintelligible than the original itself. Happily, however, a writer has arisen in our own country competent to elucidate most thoroughly the difficulties of this subject. Professor Wilson, the greatest Sanscrit scholar of the present day, whose name the University of Oxford is proud to associate with its own, in the excellent Grammar which he has given to the public has added to his high reputation by his graceful adaptation of the English language to the exposition of the native system of grammatical teaching. It may be said of all this authors numerous works, that, as they abound in indications of surpassing genius, so they offer to the student of Oriental Literature the most valuable information on every topic of inquiry.
