My Brain Gets Full G. Gayle Kelley

This is a true story...the story of my long journey, much of which I have traveled alone. Most of the time, I have not known where the road would lead...and I have no map to guide me through the darkness...no light at my feet. I still have many questions about this mysterious path I've been forced to take. It's like no other journey I have taken before. I hope others who find themselves on such an unexpected and unwanted journey will take heart from my book. My entire world changed on December 18, 2002, when I experienced a severe traumatic brain injury (TBI) from a fall at my place of work. Could I heal from this terrible injury? Would my family and I ever be able to enjoy anything approaching the quality of life we had before the accident?
