Optimization Modeling with Spreadsheets Kenneth R. Baker

An accessible introduction to optimization analysis using spreadsheets

Updated and revised, *Optimization Modeling with Spreadsheets, Third Edition* emphasizes model building skills in optimization analysis. By emphasizing both spreadsheet modeling and optimization tools in the freely available Microsoft® Office Excel® Solver, the book illustrates how to find solutions to real-world optimization problems without needing additional specialized software.

The *Third Edition* includes many practical applications of optimization models as well as a systematic framework that illuminates the common structures found in many successful models. With focused coverage on linear programming, nonlinear programming, integer programming, and heuristic programming, *Optimization Modeling with Spreadsheets, Third Edition* features:

- An emphasis on model building using Excel Solver as well as appendices with additional instructions on more advanced packages such as Analytic Solver Platform and OpenSolver
- Additional space devoted to formulation principles and model building as opposed to algorithms
- New end-of-chapter homework exercises specifically for novice model builders
- Presentation of the Sensitivity Toolkit for sensitivity analysis with Excel Solver
- Classification of problem types to help readers see the broader possibilities for application
- Specific chapters devoted to network models and data envelopment analysis
- A companion website with interactive spreadsheets and supplementary homework exercises for additional practice

Optimization Modeling with Spreadsheets, Third Edition is an excellent textbook for upper-undergraduate and graduate-level courses that include deterministic models, optimization, spreadsheet modeling, quantitative methods, engineering management, engineering modeling, operations research, and management science. The book is an ideal reference for readers wishing to advance their knowledge of Excel and modeling and is also a useful guide for MBA students and modeling practitioners in business and non-profit sectors interested in spreadsheet optimization.

From reader reviews:

Betty Ahlstrom:

With other case, little men and women like to read book Optimization Modeling with Spreadsheets. You can choose the best book if you appreciate reading a book. As long as we know about how is important a book Optimization Modeling with Spreadsheets. You can add knowledge and of course you can around the world by the book. Absolutely right, because from book you can realize everything! From your country until foreign or abroad you will end up known. About simple factor until wonderful thing you may know that. In this era, we can open a book or maybe searching by internet gadget. It is called e-book. You should use it when you feel fed up to go to the library. Let's study.

Frances Hairston:

Spent a free time and energy to be fun activity to try and do! A lot of people spent their sparetime with their family, or their friends. Usually they doing activity like watching television, gonna beach, or picnic within the park. They actually doing same task every week. Do you feel it? Will you something different to fill your own personal free time/ holiday? Can be reading a book might be option to fill your free of charge time/ holiday. The first thing that you ask may be what kinds of publication that you should read. If you want to try out look for book, may be the e-book untitled Optimization Modeling with Spreadsheets can be great book to read. May be it is usually best activity to you.

Victor Brown:

Do you one of the book lovers? If yes, do you ever feeling doubt if you find yourself in the book store? Make an effort to pick one book that you find out the inside because don't assess book by its protect may doesn't work here is difficult job because you are frightened that the inside maybe not as fantastic as in the outside seem likes. Maybe you answer is usually Optimization Modeling with Spreadsheets why because the excellent cover that make you consider regarding the content will not disappoint a person. The inside or content will be fantastic as the outside as well as cover. Your reading 6th sense will directly make suggestions to pick up this book.

Tracy Laflamme:

What is your hobby? Have you heard that question when you got scholars? We believe that that concern was given by teacher to the students. Many kinds of hobby, All people has different hobby. So you know that little person just like reading or as reading become their hobby. You need to know that reading is very important along with book as to be the matter. Book is important thing to include you knowledge, except your own teacher or lecturer. You will find good news or update regarding something by book. Many kinds of books that can you take to be your object. One of them is niagra Optimization Modeling with Spreadsheets.
