Princess Diana: The Hidden Evidence Jon King, John Beveridge

Was Princess Diana murdered? Or was she the victim of an innocent though tragic traffic Accident? If she was murdered, who did it? Who ordered the assassination and what were the motives behind it?

Based on information received from a veteran CIA contract agent one week prior to the crash in Paris – plus further evidence obtained from other highly placed sources, this investigative work presents an uncompromising inquiry into Diana's death.

The Authors are not just 'conspiracy theorists.' They are investigative journalists with a proven track record, who dare to investigate issues side stepped by other journalists, and whose courageous work uncovered staggering evidence of a high-level conspiracy between British and U.S. Intelligence to assassinate Diana.

Endorsed by many highly placed intelligence & government sources, this book reveals the frightening truth: How British and U.S. Intelligence monitored Diana's every move;

How two secret letters written by Diana just before her death implicate the British Crown in "nefarious activities in Africa", specifically Angola;

How Diana threatened to expose the Crown's vested interests in Angola by pursuing her 'landmines campaign' in that country;

Why MI6 and the CIA resolved to kill her "on foreign soil";

How both Secret Services favored the 'traffic accident' as a deniable means of assassination; how this same method had been successful in previous 'deniable ops'; how the crash evidence was methodically suppressed, as was the info. on: the conspirators who planned, carried out and covered up this operation;

How chauffeur Henri Paul worked for MI6; how his blood sample –which underpins the 'drunk-driver accident' theory –was switched; and how all TV cameras at the crash scene were mysteriously switched off.

This thoroughly researched book reveals the shocking truth behind Diana's death. And in the process it exposes the most scandalous, closely guarded secret in the UK's history.
