4 STAR DOODY'S REVIEW!

"This is a wonderful resource for students of medicine, dentistry, and the allied health sciences. The book combines traditional topics in histology with elements of modern cell biology and medical physiology.... This is the body of information that students of microscopic anatomy need to know to understand the foundations of clinical medicine and succeed on future licensing examinations. Students will use this book to review key concepts in modern histology."--*Doody's Review Service*

This popular title in the LANGE series is specifically designed to help you make the most of your study time--whether you're studying histology and cell biology for the first time or reviewing for course exams or the USMLE. With this focused review you will be able to pinpoint your weak areas, and then improve your comprehension with learning aids especially designed to help you understand and retain even the most difficult material.

You will find complete easy-to-follow coverage of all the need-to-know material: fundamental concepts, the four basic tissues types, and organs and organ systems--presented in a consistent, time-saving design. At the conclusion of the book, you will find a Diagnostic Final Exam that has been updated with longer, case-related stems that mimic the USMLE Step 1 examination.

Each chapter is devoted to one specific topic and includes learning aids such as:

- **Objectives** that point out significant facts and concepts that you must know about each topic
- **Max Yield™** study questions that direct you to key facts needed to master material most often covered on exams
- **A synopsis** presented in outline form that reviews all the basic histology and related cell biology covered on exams
- **Multiple-choice questions** written in a style most commonly used in medical school

NEW to this Edition:

- Thoroughly revised Q&A
- Completely updated text and practice questions to reflect current knowledge
- Information added to each chapter regarding relevant pathology/clinical issues; possibly as a separate colored box
