This comprehensive and insightful book discusses ESD protection circuit design problems from an IC designer's perspective. **On-Chip ESD Protection for Integrated Circuits: An IC Design Perspective** provides both fundamental and advanced materials needed by a circuit designer for designing ESD protection circuits, including:

- Testing models and standards adopted by U.S. Department of Defense, EIA/JEDEC, ESD Association, Automotive Electronics Council, International Electrotechnical Commission, etc.
- ESD failure analysis, protection devices, and protection of sub-circuits
- Whole-chip ESD protection and ESD-to-circuit interactions
- Advanced low-parasitic compact ESD protection structures for RF and mixed-signal IC's
- Mixed-mode ESD simulation-design methodologies for design prediction ESD-to-circuit interactions, and more!

Many real world ESD protection circuit design examples are provided. The book can be used as a reference book for working IC designers and as a textbook for students in the IC design field.

From reader reviews:

William Gannaway:

Have you spare time for just a day? What do you do when you have much more or little spare time? Yeah, you can choose the suitable activity intended for spend your time. Any person spent their very own spare time to take a move, shopping, or went to the Mall. How about open or perhaps read a book eligible On-Chip ESD Protection for Integrated Circuits: An IC Design Perspective (The Springer International Series in Engineering and Computer Science)? Maybe it is to be best activity for you. You understand beside you can spend your time together with your favorite's book, you can wiser than before. Do you agree with their opinion or you have various other opinion?

Marie Aultman:

Nowadays reading books be a little more than want or need but also get a life style. This reading behavior give you lot of advantages. Associate programs you got of course the knowledge the rest of the information inside the book this improve your knowledge and information. The knowledge you get based on what kind of reserve you read, if you want attract knowledge just go with education books but if you want experience happy read one together with theme for entertaining for instance comic or novel. The actual On-Chip ESD Protection for Integrated Circuits: An IC Design Perspective (The Springer International Series in Engineering and Computer Science) is kind of guide which is giving the reader unstable experience.

Sylvia Harrington:

Information is provisions for folks to get better life, information presently can get by anyone on everywhere. The information can be a expertise or any news even restricted. What people must be consider whenever those information which is from the former life are challenging be find than now is taking seriously which one is suitable to believe or which one the actual resource are convinced. If you get the unstable resource then you understand it as your main information it will have huge disadvantage for you. All of those possibilities will not happen throughout you if you take On-Chip ESD Protection for Integrated Circuits: An IC Design Perspective (The Springer International Series in Engineering and Computer Science) as the daily resource information.

Denise Wallis:

Precisely why? Because this On-Chip ESD Protection for Integrated Circuits: An IC Design Perspective (The Springer International Series in Engineering and Computer Science) is an unordinary book that the inside of the guide waiting for you to snap that but latter it will zap you with the secret that inside. Reading this book alongside it was fantastic author who write the book in such awesome way makes the content inside easier to understand, entertaining approach but still convey the meaning thoroughly. So , it is good for you for not hesitating having this nowadays or you going to regret it. This phenomenal book will give you a

lot of advantages than the other book include such as help improving your ability and your critical thinking means. So , still want to delay having that book? If I had been you I will go to the book store hurriedly.
