You can't outrun fate—or two determined Alphas.

When Lia's magic fails her at the worst possible moment, she's banished from her coven. She runs into the woods, only to discover that two wolves are hunting her. She can't escape, but when the wolves shift into bare, handsome men, escaping no longer seems quite so important.

Kane never thought anything could come between him and his twin brother Ronan, but this female is special. There's something about her curves, her fire, the maddening way she resists his charms. The pack will crumble if both Alphas don't claim their mate, but Kane might not be able to share...

This is the first part of an ongoing story. Not a standalone. Cliffhangers abound.

For adult readers comfortable with ménage romance, as some installments contain explicit scenes with multiple partners.
