Fantastic Ferrocement: Fantastic Ferrocement: for Practical, Permanent Elven Architecture, Follies, Fairy Gardens and other Virtuous Ventures Mr Peter James Harris

(Createspace edition - Black and white version. The version with colour pictures at the back is also available on Amazon. It is of course dearer! But exactly same content.) If you have ever wanted to sculpt or build in a permanent material that is extremely strong and can be moulded to any shape, ferrocement is the medium for you - and this concise book shows you how to do it all. Tools, techniques and sample projects - a garden pot, angel, dome, and more - are all logically described and illustrated. The many photos showing the building of Cafe Eutopia by the author and his family will inspire as well as inform, while the introduction and 'Origins' story and updates on the progress of a ferrocement cafe and 'temple' to Love, Beauty, Truth, and Freedom add a deeper dimension to this book which shows the struggle to marry an abstract ideal with a (literally) concrete realisation.
