Tired of medication reconciliation headaches? Your remedy is here!

Inadequate reconciliation is a significant source of preventable medication errors nationwide.

Most hospitals have implemented medication reconciliation plans, but are still struggling with obstacles such as lack of communication, resistance to change, and evolving standards and regulations.

Is medication reconciliation a headache for your organization?

It's been several years since The Joint Commission made medication reconciliation a National Patient Safety Goal, but it's not getting any easier, as facilities adopt electronic forms and The NPSG continues to evolve. Furthermore, since that time, they have made significant changes to the scoring and the goal itself.
