The Book of CSS3: A Developer's Guide to the Future of Web Design Peter Gasston

CSS3 is the technology behind most of the eye-catching visuals on the Web. But the docs can be dry, murky, and full of dastardly caveats for inconsistent browser implementations.

This completely updated second edition of the best-selling *Book of CSS3* distills the dense technical language of the CSS3 specification into plain English and shows you what CSS3 can do now, in all major browsers. You'll find fully revised coverage of the updated syntax of gradients, grids, and flexible box layout, as well as all-new chapters on values and sizing, and graphical effects like filter effects and blend modes.

With an abundance of real-world examples and a focus on the principles of good design, *The Book of CSS3* will help you expand your CSS skills, as you learn how to:

- Style text with custom font choices, drop shadows, and other effects
- Create, position, and resize background images on the fly
- Spice up static web pages with event-driven transitions and animations
- Apply 2D and 3D transformations to text and images
- Use linear and radial gradients to create smooth color transitions
- Take control of layout with grids, columns, and flexible alignment
- Tailor a website's appearance to every type of web-capable device

The companion website includes up-to-date browser compatibility charts, links to tutorials and resources, and live CSS3 examples.

The Web can be an ugly place. Make it pretty with *The Book of CSS3.*

From reader reviews:

Dean Rakestraw:

Why don't make it to become your habit? Right now, try to ready your time to do the important act, like looking for your favorite e-book and reading a book. Beside you can solve your long lasting problem; you can add your knowledge by the guide entitled The Book of CSS3: A Developer's Guide to the Future of Web Design. Try to stumble through book The Book of CSS3: A Developer's Guide to the Future of Web Design as your buddy. It means that it can to be your friend when you feel alone and beside associated with course make you smarter than before. Yeah, it is very fortuned for you. The book makes you far more confidence because you can know almost everything by the book. So , we need to make new experience in addition to knowledge with this book.

Margaret Wynkoop:

Now a day people that Living in the era just where everything reachable by talk with the internet and the resources included can be true or not need people to be aware of each data they get. How people have to be smart in obtaining any information nowadays? Of course the answer is reading a book. Examining a book can help men and women out of this uncertainty Information especially this The Book of CSS3: A Developer's Guide to the Future of Web Design book because book offers you rich information and knowledge. Of course the data in this book hundred per-cent guarantees there is no doubt in it you probably know this.

Karen Lambert:

Why? Because this The Book of CSS3: A Developer's Guide to the Future of Web Design is an unordinary book that the inside of the reserve waiting for you to snap the item but latter it will jolt you with the secret this inside. Reading this book next to it was fantastic author who also write the book in such amazing way makes the content within easier to understand, entertaining approach but still convey the meaning entirely. So , it is good for you because of not hesitating having this ever again or you going to regret it. This unique book will give you a lot of rewards than the other book possess such as help improving your ability and your critical thinking way. So , still want to postpone having that book? If I were you I will go to the e-book store hurriedly.

Regina Dye:

As a college student exactly feel bored in order to reading. If their teacher expected them to go to the library or make summary for some guide, they are complained. Just small students that has reading's internal or real their pastime. They just do what the trainer want, like asked to the library. They go to there but nothing reading really. Any students feel that examining is not important, boring in addition to can't see colorful images on there. Yeah, it is for being complicated. Book is very important for you. As we know that on this period of time, many ways to get whatever you want. Likewise word says, many ways to reach Chinese's

country. So , this The Book of CSS3: A Developer's Guide to the Future of Web Design can make you sense more interested to read.
