The Harrad Experiment

Robert H. Rimmer

The Harrad Experiment Robert H. Rimmer

A new-age "experiment" takes place in the 1960s at Harrad College, a privately endowed and liberally run school that admits carefully selected students. This social experiment encourages premarital living arrangements and is totally committed - not mere lip-service or public-relations hype - to getting young men and women to think and act for themselves.

What do they think about? Everything that interests the author, Bob Rimmer: human relations, sex, history, philosophy, anatomy, existentialism, art, music, Zen, politics - and, once more, sex.

Four Harrad students record their thoughts regularly for four years. Their diaries include large chunks of college "action," conversation, and portraits of fellow students, so the reader is swept into the lives of these young adults trying to sort out the jumbled mores of America's Sixties.

Stanley Kolasukas, a bright, good-looking youth from a poor Polish family finds himself a roommate of Sheila Grove, the introspective daughter of an oil millionaire. Harry Schacht, a brilliant but ungainly medical student from an Orthodox Jewish background, lives with Beth Hillyer, a girl with enough drive to be a better doctor and enough sensuality to need many men in her life. Jack Dawes, imaginative and enthusiastic, lives with Valerie Latrobe, a dominant girl who believes she can better any man at anything.

The original *Harrad Experiment* sold more than three million copies. This 25th anniversary edition includes a new epilogue describing the startling "Harrad/Premar Solution," a fully up-to-date and annotated bibliography of books that support the daring, joyfully subversive premises outlined in *Harrad*, and Robert Rimmer's candid, controversial autobiography. When you have read this book, you will find yourself entertaining the question of whether a real-life Harrad Experiment could - or should - be going on somewhere today, turning out a very special group of young men and women with the potential to utterly change America's ways of living, thinking, and loving in the 21st century.

From reader reviews:

Lela Hird:

Book is usually written, printed, or created for everything. You can realize everything you want by a publication. Book has a different type. We all know that that book is important thing to bring us around the world. Close to that you can your reading proficiency was fluently. A e-book The Harrad Experiment will make you to become smarter. You can feel far more confidence if you can know about everything. But some of you think that will open or reading some sort of book make you bored. It is not make you fun. Why they can be thought like that? Have you looking for best book or ideal book with you?

Robert Brown:

Information is provisions for those to get better life, information currently can get by anyone with everywhere. The information can be a expertise or any news even a huge concern. What people must be consider if those information which is inside former life are hard to be find than now's taking seriously which one is appropriate to believe or which one often the resource are convinced. If you get the unstable resource then you have it as your main information we will see huge disadvantage for you. All those possibilities will not happen inside you if you take The Harrad Experiment as the daily resource information.

Ricardo Donaldson:

This The Harrad Experiment is great book for you because the content that is certainly full of information for you who also always deal with world and have to make decision every minute. This kind of book reveal it data accurately using great coordinate word or we can claim no rambling sentences included. So if you are read the idea hurriedly you can have whole information in it. Doesn't mean it only provides straight forward sentences but tough core information with attractive delivering sentences. Having The Harrad Experiment in your hand like finding the world in your arm, information in it is not ridiculous one. We can say that no e-book that offer you world in ten or fifteen tiny right but this reserve already do that. So , it is good reading book. Hello Mr. and Mrs. stressful do you still doubt which?

Violet Jarrell:

Do you like reading a e-book? Confuse to looking for your preferred book? Or your book seemed to be rare? Why so many problem for the book? But virtually any people feel that they enjoy for reading. Some people likes looking at, not only science book but also novel and The Harrad Experiment or maybe others sources were given know-how for you. After you know how the truly amazing a book, you feel would like to read more and more. Science book was created for teacher or even students especially. Those ebooks are helping them to add their knowledge. In various other case, beside science book, any other book likes The Harrad Experiment to make your spare time a lot more colorful. Many types of book like here.
