## **An invaluable tool for anyone carrying out a research project**

We all learn to do research by actually doing it, but a great deal of time and effort can be wasted and goodwill dissipated by inadequate preparation. This book provides beginner researchers with the tools to do the job, to help them avoid some of the pitfalls and time-wasting false trails, and to establish good research habits. It takes researchers from the stage of choosing a topic through to the production of a well-planned, methodologically sound, and well-written final report or thesis on time. It is written in plain English and makes no assumptions about previous knowledge.

This new edition of *Doing Your Research Project* includes:

- Coverage of latest techniques such as grounded theory
- A new chapter on ethics
- Increased examples from health studies
- New referencing, library searching, and literature review chapters
- Completely updated references throughout

This book serves as a guide to good practice for beginner researchers in any discipline embarking on undergraduate or postgraduate study, and for professionals in such fields as social science, education, and health.
