Organized around architectural project, "AutoCAD for Interior Design and Space Planning" gives readers a fundamental understanding of the commands and features of AutoCAD 2007 and demonstrates how to use the program to complete interior design and space planning projects. Building on twelve years of updates, the book covers both two-dimensional and three-dimensional drawings. Using numerous illustrations, a prompt-response format and innovative exercises, the book captures the essence of this powerful program and the importance it plays in the interior design, architecture and space planning professions. Exercises are geared to architects, interior designers, and space planners, providing readers to work with real-world situations. More than 500 illustrations with many printed to scale. Illustrations in the margins help the user locate AutoCAD commands within the AutoCAD menu and toolbars. Prompt-response format is now clearly defined with shaded areas and numbered steps.
