Automotive SPICE in Practice: Surviving Implementation and Assessment (Rockynook Computing)

Klaus Hoermann, Markus Mueller, Lars Dittmann, Joerg Zimmer

Automotive SPICE is a framework for designing and assessing software development processes. If implemented effectively, it leads to better processes and better product quality. It also helps to improve the cooperation among complex supply chains and between globally distributed development and engineering centers.

Automotive SPICE has been derived from the ISO/IEC 15504 standard, also known as SPICE. It has been developed under the Automotive SPICE initiative by the consensus of several major car manufacturers such as Audi, BMW, Ford, Fiat, Daimler, Porsche, Volkswagen, and Volvo. Today, Automotive SPICE has become a standard in the international automotive industry.

This book is written as a guide to help the reader understand and interpret the requirements of this standard and to implement Automotive SPICE in a real world application environment. It is written for engineers, practitioners, managers, and project managers who need practical guidance in applying or implementing the Automotive SPICE framework in his/her company. Important topics, such as traceability, functional safety (IEC 61508), and the relationship between Automotive SPICE and CMMI are given particular attention.

This book is a definite must for practitioners involved in implementing Automotive SPICE in process improvement programs; a welcome aid for any assessor looking for clear, consistent, and constructive rating guidelines; and an invaluable resource for anyone concerned with engineering development processes in the automotive industry.

From reader reviews:

Deborah Green:

The book Automotive SPICE in Practice: Surviving Implementation and Assessment (Rockynook Computing) make one feel enjoy for your spare time. You need to use to make your capable considerably more increase. Book can to get your best friend when you getting strain or having big problem with the subject. If you can make reading a book Automotive SPICE in Practice: Surviving Implementation and Assessment (Rockynook Computing) to be your habit, you can get a lot more advantages, like add your current capable, increase your knowledge about some or all subjects. You may know everything if you like available and read a publication Automotive SPICE in Practice: Surviving Implementation and Assessment (Rockynook Computing). Kinds of book are a lot of. It means that, science guide or encyclopedia or others. So , how do you think about this book?

Inocencia Hensley:

Reading a guide can be one of a lot of activity that everyone in the world enjoys. Do you like reading book thus. There are a lot of reasons why people fantastic. First reading a book will give you a lot of new info. When you read a book you will get new information simply because book is one of several ways to share the information or their idea. Second, studying a book will make an individual more imaginative. When you reading through a book especially fictional book the author will bring someone to imagine the story how the character types do it anything. Third, you may share your knowledge to other folks. When you read this Automotive SPICE in Practice: Surviving Implementation and Assessment (Rockynook Computing), you could tells your family, friends along with soon about yours reserve. Your knowledge can inspire average, make them reading a reserve.

Eric Langley:

The reason? Because this Automotive SPICE in Practice: Surviving Implementation and Assessment (Rockynook Computing) is an unordinary book that the inside of the guide waiting for you to snap the idea but latter it will zap you with the secret the idea inside. Reading this book close to it was fantastic author who else write the book in such incredible way makes the content inside easier to understand, entertaining technique but still convey the meaning fully. So , it is good for you because of not hesitating having this ever again or you going to regret it. This unique book will give you a lot of advantages than the other book possess such as help improving your expertise and your critical thinking way. So , still want to hesitate having that book? If I have been you I will go to the guide store hurriedly.

Larry Brackett:

Automotive SPICE in Practice: Surviving Implementation and Assessment (Rockynook Computing) can be one of your beginning books that are good idea. Most of us recommend that straight away because this guide

has good vocabulary that will increase your knowledge in words, easy to understand, bit entertaining but still delivering the information. The author giving his/her effort to get every word into satisfaction arrangement in writing Automotive SPICE in Practice: Surviving Implementation and Assessment (Rockynook Computing) nevertheless doesn't forget the main level, giving the reader the hottest along with based confirm resource facts that maybe you can be among it. This great information can drawn you into brand new stage of crucial pondering.
