Pink Herrings: Fantasy, Object Choice, and Sexuation (Lines of the Symbolic) Damien W. Riggs

The question of the relationship between homosexuality, transsexuality, and psychoanalysis has long plagued the field. Answers to this question have typically taken the form of either pathologizing or affirmative accounts of homosexuality and transsexuality, with both accounts recouping the work of Freud to warrant their position.

Pink Herrings seeks to move the field beyond these two accounts by taking as its organizing principle the claim that the unconscious is not organized in relationship to a pre-given sexual orientation or gender identity. Rather, through a Lacanian account of sexuation, the book argues that the question of object choice is fundamentally a question of fantasy, and that what requires our attention are the fantasies, as much as structures, that shape the unconscious.
