Time will no longer extend infinitely into the past, nor will it come to an abrupt beginning. Big Bang will be as if it had never been; it will vanish from the scene. Perhaps, instead of one world there will be many worlds, and many you's in place of you. What happened to all the you's you might have been if you had made different decisions at critical junctures in your life? Are they still out there somewhere, living their lives? Is it possible you can visit with them? In your new world, straight lines will no longer exist; they will all be curved, but some will seem as if they are straight! Numbers will become beautiful of themselves and have little to do with things! Number theory results - oh, yes, at a low level - are attained here, but some perhaps unknown to mathematicians to this day! Death? What is death? You will explore that question with me and find many possible answers including that death may be but occasional brief interludes between lives of your animus or soul.
