Imponderable but Not Inevitable: Warfare in the 20th Century (Praeger Security International)

Imponderable but Not Inevitable: Warfare in the 20th Century (Praeger Security International)

By definition, the unforeseeable cannot be seen, but one way to bring more variables under consideration when planning a military action is to review those instances where the unforeseeable changed everything. For professionals and enthusiasts alike, *Imponderable But Not Inevitable: Warfare in the 20th Century* does just that, reviewing specific instances in 20th-century warfare when things did not go according to plan.

Imponderable but Not Inevitable uses case studies to expose the "Inevitability Syndrome," exploring the role of luck, fate, and randomness in influencing both victory and defeat. In essays drawn from World War II, Konfrontasi, the Vietnam War, and the Gulf War, a distinguished set of military experts looks at real scenarios of inexplicable losses, illustrating why nothing—nothing—should be taken for granted in war.
