System of Logic: Ratiocinative and Inductive - Being a Connected View of the Principles of Evidence and the Methods of Scientific Investigation John Stuart Mill

From preface: This book makes no pretence of giving to the world a new theory of the intellectual operations. Its claim to attention, if it possesses any, is grounded on the fact that it is an attempt not to supercede, but to embody and systematise, the best ideas which have been either promulgated on its subject by speculative writers, or conformed to by accurate thinkers in their scientific inquiries.
