A guide to building and modifying Tcl scripts to automate network administration tasks

Streamline Cisco network administration and save time with Tcl scripting

Cisco networking professionals are under relentless pressure to accomplish more, faster, and with fewer resources. The best way to meet this challenge is to automate mundane or repetitive tasks wherever possible. In this book, three Cisco experts show you how to use Tcl scripting for Cisco IOS devices to do just that.

You'll learn easy techniques for creating, using, and modifying Tcl scripts that run directly on Cisco network devices from the Cisco IOS command line. The authors first teach basic Tcl commands and concepts for capturing and manipulating data and for querying or controlling Cisco equipment. Building on these core skills, they show you how to write scripts that automate and streamline many common IOS configuration, monitoring, and problem-solving tasks.

The authors walk through the entire script development process, including planning and flowcharting what you want to accomplish, formatting your code, adding comments, and troubleshooting script errors. They also present many downloadable sample scripts, along with practical guidance for adapting them to your own environment.

Whatever your role in managing, monitoring, or securing Cisco IOS networks and equipment, this book will help you get the job done more rapidly and efficiently.

Ray Blair, CCIE No. 7050, is a Cisco vertical solutions architect specializing in large network designs. He has more than 20 years of experience in designing, implementing, and maintaining networks, and maintains three CCIE certifications.

Arvind Durai, CCIE No. 7016, Advanced Services Technical Leader for Cisco, specializes in supporting major Cisco enterprise customers in finance, manufacturing, e-commerce, government, and healthcare. He holds CCIEs in Routing and Switching, and in Security.

John Lautmann, Cisco Software Engineer, has developed and enhanced network management software for twelve years, and holds six patents. He has helped develop new Cisco IOS features ranging from data link switching to IOS Tcl Interpreter and digitally signed Tcl scripts.

- Automate routine administration tasks you've always performed manually
- Instantly collect and modify IOS router configurations and other data
- Write Syslog scripts to document failures, monitor network health, collect statistics, and send alarm messages
- Implement automated network performance measurement using IP SLA
- Use the Embedded Event Manager's event detectors, server, and policies to customize device operation
- Trigger preplanned actions to correct problems as they arise
- Simplify policy management using the Tcl script refresh feature

- Protect Tcl script security with digital signatures and PKI
- Understand how Tcl functions within the Cisco IOS environment
- Master Tcl syntax and commands through hands-on practice
- Learn best scripting practices through expert examples
- Quickly modify this book's examples for your own environment

This book is part of the Networking Technology Series from Cisco Press®, which offers networking professionals valuable information for constructing efficient networks, understanding new technologies, and building successful careers.

From reader reviews:

Phyllis Tucker:

Reading a e-book tends to be new life style in this era globalization. With looking at you can get a lot of information which will give you benefit in your life. With book everyone in this world can easily share their idea. Guides can also inspire a lot of people. A lot of author can inspire their reader with their story or their experience. Not only situation that share in the publications. But also they write about the ability about something that you need example of this. How to get the good score toefl, or how to teach children, there are many kinds of book that you can get now. The authors in this world always try to improve their skill in writing, they also doing some analysis before they write with their book. One of them is this Tcl Scripting for Cisco IOS (Networking Technology).

Margaret Burman:

A lot of people always spent their free time to vacation as well as go to the outside with them household or their friend. Did you know? Many a lot of people spent many people free time just watching TV, as well as playing video games all day long. If you want to try to find a new activity that is look different you can read a book. It is really fun for you personally. If you enjoy the book that you just read you can spent the entire day to reading a publication. The book Tcl Scripting for Cisco IOS (Networking Technology) it is extremely good to read. There are a lot of individuals who recommended this book. These were enjoying reading this book. Should you did not have enough space to bring this book you can buy typically the e-book. You can m0ore simply to read this book out of your smart phone. The price is not too expensive but this book features high quality.

Maria Kim:

Reading can called mind hangout, why? Because if you are reading a book specially book entitled Tcl Scripting for Cisco IOS (Networking Technology) your thoughts will drift away trough every dimension, wandering in most aspect that maybe unknown for but surely might be your mind friends. Imaging every word written in a guide then become one web form conclusion and explanation this maybe you never get prior to. The Tcl Scripting for Cisco IOS (Networking Technology) giving you one more experience more than blown away your head but also giving you useful info for your better life in this era. So now let us demonstrate the relaxing pattern this is your body and mind will probably be pleased when you are finished looking at it, like winning a game. Do you want to try this extraordinary paying spare time activity?

Genia Vanderford:

You may get this Tcl Scripting for Cisco IOS (Networking Technology) by go to the bookstore or Mall. Merely viewing or reviewing it can to be your solve problem if you get difficulties on your knowledge. Kinds of this publication are various. Not only by simply written or printed but additionally can you enjoy this book by means of e-book. In the modern era just like now, you just looking by your local mobile phone

and searching what your problem. Right now, choose your own ways to get more information about your publication. It is most important to arrange you to ultimately make your knowledge are still change. Let's try to choose proper ways for you.
