The Fairy Faith in Celtic Countries: The Classic Study of Leprechauns, Pixies, and Other Fairy Spirits

W.Y. Evans Wentz

Evans-Wentz presents an accurate record of ancestral Celtic devotion about the apparent reality of leprechauns, pixies, elves, fairies and other nature spirits. Not only is this a formal and scholarly study but an educated report of how beliefs became the standards of ancient Pagan magic. We come away with the conclusion that fairies and other such manifestations may be the inhabitants of a more advanced existence that only a few of us can understand. This account combines medieval myths, traditional fairy knowledge, and early Paganism with folk-lore, history, anthropology and psychology to become a narrative which appears too consistent to be the result of an insane distraction. This magnificent book is a very readable collection of anecdotes, interviews, and legends made available to Evans-Wentz who has fashioned them into an essential reference for generations to come.
